Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant maintains the position to traverse the restriction under 35 U.S.C. 121 and 372 dated 4/25/2006. Applicant states that Examiner cannot perform a lack of unity when there's no prior art to compare. Further, Applicant maintains the position that the methods for testing a measuring system for correct functioning by transmitting and electrically contacting a signal-monitoring circuit of the measuring device with a test-potential source do produce tangible results.

Examiner maintains both positions stated above. However, Examiner will consult with a 101 panel to finalize the 101 rejections .

Further, Applicant will consider amending claim 23 into claim 15 with addition to recite "outputting the test data result" to overcome the 101 issue.
